

MAP OUT YOUR FUTURE IN BUSINESS ADMINISTRATION WITH AN M.B.A. FROM ADELPHI

A Partnership with Catholic Health Services of Long Island

“The Adelphi MBA has served as a critical tool in my armamentarium of skills as a physician leader. Classes, which included Leadership & Innovation in Complex Systems, Management Styles & Teambuilding, and Strategic Management afforded me the knowledge to successfully enhance my career as an executive. Other classes in Accounting, Finance, and Statistical Methods have allowed me to engage in meaningful conversation with my finance colleagues. I believe that physicians in private practice will also benefit from having their Adelphi MBA, as they are provided with an enhanced understanding of how to successfully navigate their practice and manage it more efficiently, as well as cost-effectively. The program was collaborative, appropriately challenging, and enjoyable. In addition, my colleagues in the physician cohort have become lifelong friends. Overall, the Adelphi MBA program was an amazing experience!”

*Jason M. Golbin, DO, MBA, MS, FCCP, FACP, FACHE, CHCQM, CPPS, CMQ, CPXP
System Chief Quality Officer
Senior Vice President
Catholic Health Services of Long Island*

UNIVERSITY

Robert B. Willumstad School of Business

WHY SHOULD I ENROLL IN ADELPHI'S ACCELERATED M.B.A. PROGRAM?

Flexibility – Classes are held one night a week from 5:30-9:30pm at CHS Offices in Melville.

Cohort Style – The program provides an invaluable opportunity for physicians to learn alongside and network with a common peer group.

Personal – Small class sizes enable faculty to provide more personal attention inside and outside the classroom

Reputable – The School has held accreditation from AACSB since 2007. Only 6 percent of the world's business schools hold membership.

WHAT WILL I STUDY IN ADELPHI'S ACCELERATED M.B.A. PROGRAM?

The Accelerated M.B.A. program provides a balanced, diverse, and global orientation to business education. It emphasizes leadership, team building, analysis and problem solving.

- Fourteen courses (42 credits)
- Two courses every semester
- One course per term
- Terms are eight weeks long
- Cohort format used for the entire program
- Eight hours of online activities per course in addition to in-class instruction
